

Name: Dr Joseph F Muratore
Email Address: muratore@bnl.gov
Title: physicist
Organization: Brookhaven National Laboratory
County: Suffolk

Comment: I would like to extend my appreciation for starting this this crucial process. I am writing to let you know that, as a New York State resident, I urge you to adopt an energy plan that includes a major utilization of solar photovoltaics and solar thermal equipment. We need to take large steps to fix our economy, environment and broken power production system. We can no longer afford to implement renewable energy in small steps. Many experts are urging 2000 MW of solar by 2020. This new energy plan is extremely important for the state of New York. A well-designed 2000 MW solar program can be implemented for as little as \$0.82 in residential rate payer impacts a month and deliver more than \$10 billion dollars in economic output. As a New Yorker I strongly support this investment and urge you to incorporate a comprehensive solar program, of at least 2000 MW by 2020, as part of your State Energy Plan.
