

**P. SANTIAGO ORTEGA**  
**FRIEND OF THE BLUE PLANET, SPAIN**

See the website of the industrial designer Mr. Fredy Paciello, [www.fredypaciello.com](http://www.fredypaciello.com) , he surveys the perfected hydrogenerator, which directly converts the movement of water into electricity, without dams, without impact on the environment.

I believe that this one is a solution to obtain abundant, cheap electricity. Also it is the response for 2,000 million people who have not electric power in the world.
